

IMPLEMENTATION - EU DIRECTIVE 2006/66/CE

Finder products containing batteries are compliant with EU Directive 2006/66/CE. Substances contained within the batteries also meet the requirements of the Directive. The batteries are appropriately marked and at the end of life must be removed from the products and disposed of in appropriate collection centres.

EU Directive 2006/66/CE is transposed by the WASTE BATTERIES AND ACCUMULATORS REGULATIONS 2009 and Finder plc is registered as a Small Producer of Portable Batteries under Battery Producer Registration Number BPRN01278. As a Small Producer, Finder plc has no collection, treatment or recycling obligations. At the "end of life" the end-user has the obligation to dispose according to local by-laws.
