## Relays with forcibly guided contacts for safety applications

For all applications requiring the expansion of safety contacts.

According to:

- EN 61810-3 class A and class B (previously EN 50205)
- EN 13849-1
- IEC 61508 up to SIL 2 and SIL 3 (according to type)

SIL2

SIL3

### Applications

- Elevator industry
- Railway applications
- Signalling
- For safety applications according to the Machinery Directive
- For electrical isolation
- Chemical and petrochemical plants

### Benefits

- ✓ Forcibly guided contacts ensure reliability
- ✓ Versatile products adaptable to different applications
- ✓ These are products that will help you meet your equipment's compliance with its relevant Directives

#### 50 Series

#### PCB Relay

according to EN 61810-3 class B\* (previously EN 50205)

- 2 CO 8 A
- Nominal coil voltage from 5 to 125 V DC
- Cadmium Free contact materials
- 8 mm, 6 kV (1.2/50 μs) isolation, coil-contacts
- Available with AgNi or AgNi+Au contacts
- Flux proof: RT II

#### 48 Series

#### Relay interface

according to EN 61810-3 class B\* (previously EN 50205)

- 2 CO 8 A
- Nominal coil voltage 12 and 24 V DC
- Screw terminals
- Cadmium Free contact materials
- 8 mm, 6 kV (1.2/50 μs) isolation, coil-contacts
- Available with AgNi or AgNi+Au contacts
- 35 mm rail (EN 60715) mounting

#### 7S Series

#### Modular relays

according to EN 61810-3 class A (previously EN 50205)

- Nominal coil voltage: 12 - 24 - 48 and 110 V DC  
110...125 and 230...240 V AC
- Screw and Screwless terminals
- LED indication of coil status

**For applications up to SIL2 according to IEC 61508 (according to type)**

- 2, 3, 4 or 6 forcibly contacts 6 A and 10 A (according to type)
- For functional reliability in machinery and plant engineering according to EN 13849-1
- For railway applications; materials compliant with fire and smoke characteristics (EN 45545-2); mechanical and climatic characteristics compliant with EN 61373 and EN 50155
- 24 and 110 V DC versions with extended operating range (0.7...1.25)U<sub>N</sub>

**For applications up to SIL3 according to IEC 61508**

- 2 NO safety contacts 6 A
- 1 NC feedback contact
- 1 auxiliary signalling contact
- For functional reliability in machinery and plant engineering according to EN 13849-1

\* Class B: only 1 NO and 1 NC shall be used as forcibly guided contacts.
